

# Eildon Kindergarten Report - 7 May 2021

Busy times at the centre this term already!!!

We have had two visits from both Scope Field Officer and a Speech Pathologist to assist staff with strategies in supporting your child's development.

Staff have now completed level 2 First Aid Training, Apply First Aid, CPR, Asthma, and Anaphylaxis.

The children have enjoyed their first bush kinder walk, becoming familiar with the bush setting we will use throughout Terms 2 and 3.

'Sing and Grow' was a great success with Beth, using music and actions to activate both brain lobes to assist with the children's emotional regulation.

The bikes and bike track have also been very popular, we are going to develop a Mini Service Station at the track as a provocation to engage the children with literacy and numeracy skills.

The children had a great time cheering on their foundation peers and siblings at the Cluster Cross Country on Wednesday.

We encourage families to provide children with a piece of fruit everyday for shared morning tea. We have noticed there continues to be a lot of pre-packaged high sugar products in children's lunches. In line with our healthy eating policy we would like to promote healthier options to children, creating healthy eating habits that will enhance learning outcomes.

Hoppy Mother's Day to all our special Mum's.

Cheers, Megan & Kass
