

Eildon Kindergarten Report - 22 October 2021

The Kindergarten has been a hype of activity. The children are really enjoying the Springtime weather spending a lot of time outside engaging with nature. Nature play significantly improves all aspects of child's development — physical, cognitive, social and emotional. Playing outdoors grows resilience, initiative, creativity, making “spoon people” which we will eventually gift to the nursing home residents to brighten up their pot plants and rooms.

We had a zoom Sing and Grow session with Beth our music facilitator. Unfortunately, due to current restrictions, Beth has been unable to do face to face. The children really enjoyed the zoom, the big highlight being able to see themselves on the screen.

We have also been engaging in webinars with Merri Health to complete school readiness funding sessions. These have provided staff with knowledge and resources to best support your child's learning and development.

Please remember to put a SUN HAT in your child's bag. Hats are to be worn everyday in Term 4 as per our Sunsmart policy. Children are engaging in a lot of water play activities so please remember to pack a change of clothes as well.

Staff have started writing transition statements, parents will receive a section to complete at home, please do this promptly and return.

Masks are still mandatory at drop off/pick up, thank you everyone!

Cheers,

Megan & Kass
